Dear NEMS Member,

My name is James Cheng and it is a privilege to serve you as your primary care provider (PCP) at North East Medical Services (NEMS). Knowing who your PCP is and working with the same provider is very important in building trust and better health. That is why I wanted to tell you a little bit more about me.

I pursued my medical degree at the Robert Wood Johnson Medical School of the University of Medicine & Dentistry of New Jersey, focusing on Family Practice. After I graduated, I completed my residency at the Mountainside Family Practice in Verona, New Jersey. I also completed an internship at the Duke University Medical Center. Prior to studying medicine, I received a Masters degree in Applied Physics from the California Institute of Technology and a PhD in Mechanical Engineering from Duke University.

I joined NEMS in 2002 and have been providing health care to the community ever since. I hold a board certification from the American Board of Family Medicine and am particularly interested in acupuncture and scientific approaches to traditional Chinese medicine. I'm fluent in several languages, including Cantonese, Mandarin, Spanish and English.

In my spare time, I enjoy skiing, ice skating, reading, physics, and figuring out how things work.

So remember, the next time you need quality health care, whether it's for a sore throat or an annual physical check-up, make sure to ask for me, Dr. Cheng, your PCP.
